

Premier Controls

Unlimited, customized & scalable controls

From the very simple to the latest in technology

◆ Control & Access

- Feature rich: intuitive, simple and easy
- Configurable controls and thermostats
- Invisible sensors and controls
- Remote or local control access
- Wi-Fi access from any device
- System performance trending and tracking
- Min and max settings
- Programming and lockout options

◆ Energy & Load Management

- Load management
- Strategic circuit staging
- Timed relay sequencing
- Peak demand control
- Off-peak interface

◆ Air & Environment

- Outdoor air sensing
- Outdoor air lockout
- Indoor air quality performance
- Infectious disease mitigation

◆ Building Integration

- Building integration: Modbus and BACnet
- Complete HVAC interface
- Door and window monitoring
- Light monitoring and control
- Snow and ice melting controls

◆ Hardware & Installation

- UL listed power relays and transformers
- NEMA rated electrical enclosures
- Assembly, installation and wiring diagrams
